INTERESTING RETINAL CASES I

MODERATOR: Carol Shields, MD
MODERATOR: Andre Witkin, MD

12:30 pm  Multimodal Imaging of Astrocytic Harmatomas Associated with Tuberous Sclerosis
Stephen Schwartz, MD, MBA

12:35  Surgical Removal of Subretinal Taenia Solium Cysticercus
Neal Atebara, MD

12:40  Optic Disc Anomaly
Carol Shields, MD

12:45  Mystery Case
Jerry Shields, MD

12:50  Orbital Approach to Chronic Retinal Detachment
Robert Sisk, MD

12:55  Clinicopathologic Correlation of Iatrogenic Ophthalmic Artery Obstruction
Sander Dubovy, MD

1:00  Multifocal Mystery
Mark Johnson, MD

1:05  Unknown Case of Bilateral Simultaneous SRN
Antonio Casella, MD, PhD

1:10  Serous Retinal Detachment following Retinal Detachment Surgery in the Fellow Eye
Robert Johnson, MD

1:15  Anatomically Distinct Sequential Retinal Toxicity from Two Different Chemotherapeutic Agents
Thomas Hanscom, MD

1:20  Bilateral Acute Exudative Polymorphous Vitelliform Maculopathy and Angle Closure
Andre Witkin, MD

1:25  Rapidly Progressive Bilateral Maculopathy
Jeffrey Gross, MD

1:30  A Baffling Case of Retinitis
Sandeep Randhawa, MD

1:35  A New Approach for a Recent Described Maculopathy
Eduardo Cunha de Souza, MD

1:40  An Unusual Case of Peripapillary Fluid
Lucy Young, MD, PhD

1:45  Mystery Oncology Case
William Harbour, MD

1:50  Pneumatic Maculopexy Treatment of Acute Subfoveal Hemorrhage following Blunt Trauma in a Patient with Angioid Streaks associated with Pseudoxanthoma Elasticum
Michael Colucciello, MD
INTERESTING RETINAL CASES II
MODERATOR: Sophie Bakri, MD
MODERATOR: Michael Ober, MD

1:55 pm Endophthalmitis in a Silicone Oil-filled Eye Following Retinal Detachment Repair Managed with Intravitreal Antibiotics
Robert Steinmetz, MD

2:00 Atypical Retinal Edema - Source?
Edwin Ryan, MD

2:05 Optical Coherence Tomography Angiography Analysis of Collateralization in a Case of Branch Retinal Vein Occlusions Supports Macular Venous Drainage Originating in the Deep Capillary Plexus
Bailey Freund, MD

2:10 Corkscrew Vasculitis: A New Retinal Disease?
Luiz Lima, MD

2:15 Unknown Diagnosis
Arun Singh, MD

2:20 Retinal Toxicity from Intravitreal Ocriplasmin
Andrew Antoszyk, MD

2:25 The Project: A New Association
Jose Pulido, MD

2:30 An Extremely Rare Cause of Bilateral Retinal Detachment Treated Non-Surgically
Geoff Willis, MD, FRCSC

2:35 Severe Bilateral Exudative Changes with Extensive Subretinal Hemorrhages in an Elderly Patient
Colin Tan, MBBS, FRCSEd (Ophth)

2:40 Bedazzled!
Richard Rosen, MD, ScD

2:45 OPG and Retinal Capillaries Plexus
Edoardo Midena, MD, PhD

2:50 Refractive Error, Axial Length and Foveal Development
Anita Agarwal, MD

2:55 Vision Loss Following Cataract Surgery
Michael Ober, MD

3:00 Dilemmas in the Management of CNV associated with Optic Nerve Coloboma
Sophie Bakri, MD

3:05 A Half-dozen Egg-colored Lesions
Lejla Vajzovic, MD

3:10 Optical Coherence Tomography Angiography Findings in a Solitary Retinal Hemangioblastoma Pre- and Post-laser Therapy
Rukhsana Mirza, MD

3:15 Strange Pattern of Choroidal Thickening; It was not Just VKH...
Kyoko Ohno-Matsui, MD
VIDEO PRESENTATIONS
MODERATOR: Audina Berrocal, MD
MODERATOR: Sunir Garg, MD, FACS

3:20 pm  A New Dye Based on Anthocyanins from Açai Fruit (Euterpe oleracea) for Chromovitrectomy in Human Eyes Aids the Identification of Posterior Hyaloid and Internal Limiting Membrane in Purple Color
Mauricio Maia, MD, PhD

3:25  3D Heads Up Surgery for a Choroidal Mass Biopsy
Shlomit Schaal, MD, PhD

3:30  Texas Taco Cures the Pits—Inverted Internal Limiting Membrane for Optic Nerve Pit
David Brown, MD

3:35  Alligator Forceps for Intraocular Foreign Body Removal
Uday Desai, MD

3:40  Frag Bag: A Novel Technique for Removal of Retained Lens Material
Sharon Fekrat, MD

3:45  Unusual Intraocular Foreign Body Removal
Arnaldo Bordon, MD, PhD

3:50  Don’t Eat it Raw!
Audina Berrocal, MD

3:55  Removal of Multiple Glass Intraocular Foreign Bodies after Glassblowing Accident
Sunir Garg, MD
